

MINNESOTA ARCHITECTURAL FIRMS – SHORT LIST

The three firms below are the architectural and design firms selected by the project team to invite to the competition. A fourth firm was identified, but did not respond to several phone calls. All of these firms are very experienced and creative organizations with a good reputation in the area of church building and remodeling, all are metro-area firms, and all are generally familiar with our building.

As described elsewhere, each has been given study materials, will take a tour, then be asked to present their concept of what kinds of things can be done with our space. On the basis of the response, their project portfolio and our assessment of their strengths, one firm will be selected and work will begin around October 1, 2011, on coming up with a firm design for review by the project team and the Parish Council.
